

DAC ARP010 Optical Cable

Overview:

DAC's ARP010 Optical Cable is engineered to provide high-quality audio transfer for a range of devices, ensuring an exceptional listening experience. With a generous length of 3 meters, this optical cable is perfect for connecting CD players, TVs, and sound systems, delivering crystal-clear digital audio without interference.

Technical Specifications

- **Type:** Toslink Cable
- **Length:** 3 meters
- **Construction Material:** Premium Optical Fibre
- **Inner Jacket Material:** Polyethylene (PE)
- **Outer Jacket Material:** Durable PVC
- **Connector Type:** Gold Plated Tips

Key Features

- **Premium Optical Fibre:** Designed with high-grade optical fibre, the ARP010 ensures minimal signal loss and maximum clarity for digital audio transmission.
- **Durable Construction:** The inner PE jacket provides flexibility and protection for the optical fibre, while the robust PVC outer jacket enhances durability and resistance to wear and tear.
- **Corrosion-Resistant Connectors:** The gold plated tips not only provide excellent conductivity but also resist corrosion, ensuring a stable and reliable connection over time.
- **Versatile Compatibility:** Ideal for connecting various devices, including CD players, TVs, sound systems, and gaming consoles, making it a versatile choice for any audio setup.
- **Interference-Free Transmission:** The optical design allows for interference-free audio transfer, eliminating issues related to electromagnetic interference (EMI) commonly found with traditional cables.

The DAC ARP010 Optical Cable is an excellent choice for anyone looking to enhance their audio experience. With its premium construction and thoughtful design, this 3-meter cable ensures optimal performance and reliability, making it a must-have for connecting your audio devices. Enjoy the benefits of clear, high-quality sound with the ARP010 optical cable in your home entertainment system.
