

DAC SPY211 Hi-End Speaker Cable

Overview

The DAC SPY211 Hi-End Speaker Cable is engineered for audiophiles seeking superior sound quality and performance in their two-channel stereo setups. With meticulous attention to detail, this cable incorporates high-end materials and construction techniques to deliver an immersive listening experience.

Key Features

- **24K Gold Plated Connectors:** Ensures optimal conductivity and resistance to corrosion, enhancing signal transfer and longevity.
- **High Purity Oxygen-Free Copper (PCOCC):** Reduces signal loss and improves overall sound clarity, providing a more dynamic audio range.
- **SPC (Silver Plated Copper):** Offers additional conductivity and enhances the higher frequencies, resulting in clearer sound reproduction.
- **Nylon Braid Sleeve:** Provides durability and flexibility, making the cable easy to manage while protecting it from wear and tear.
- **Foamed PE Insulation:** Minimizes dielectric loss and reduces interference, contributing to a cleaner signal.
- **Shrink Tube:** Offers additional protection to connections and ensures the integrity of the cable over time.
- **Length:** Available in a convenient 3-meter length for versatile placement in various setups.

Applications

Two-Channel Stereo Setups: The DAC SPY211 is perfect for high-fidelity audio systems where clarity and an expansive soundstage are essential. It enhances the listening experience by delivering rich, detailed sound reproduction.

Home Theatre Systems: This speaker cable is also an excellent choice for home theatre setups, providing immersive audio that complements movies and music alike. Its superior conductivity and robust design ensure that every sound effect and musical nuance is delivered with precision and depth.

Technical Specifications

- **Conductor Material:** High purity Oxygen-Free Copper (PCOCC) combined with Silver Plated Copper (SPC)
- **Connector Type:** 24K gold plated banana connectors.
- **Insulation Material:** Foamed Polyethylene (PE)
- **Sleeve Material:** Nylon braid
- **Cable Length:** 3 meters (set of 2 pcs)

The DAC SPY211 speaker cable is the perfect choice for those who demand the best in audio performance and aesthetics, ensuring that every note and nuance is delivered with precision.
